Staff recently surveyed residents within the MPO boundaries to get their feedback on our public involvement process and some of the methods we use to engage the public.

The survey was posted on our website and a link to the survey was sent out through KIPDA website notification and was also posted on KIPDA's blog, Facebook and Twitter accounts. Local newspapers also ran announcements about the survey.

The survey was created to gather information on our current outreach practices and to gauge how residents felt about their voice being heard in the process. Staff will use this data to determine how we can better serve the public through our outreach.

The survey had over 25 questions and we received over 70 responses. Below is one of the questions and the response from the survey. The rest of the survey results will be presented and made available during the TPC meeting.
